

Career Action Plan

Career Action Plan for: **Isaac Galvan**

Future Career: **History Professor**

Section	My Answers
Occupations Matching Your Interests	Welder, Electrician, HVAC Technician, Construction Worker.
Occupations Matching Your Lifestyle Goals	Welder, Electrician, HVAC Technician.
Occupation to Research	Welder.
Degree and/or Certification Required	Usually a high school diploma or GED plus welding training; many welders also earn a certificate or industry certification.
Education and/or Training Programs	Fresno trade and construction pathways, Fresno EOC Valley Apprenticeship Connections, and local trade schools such as SJVC Fresno Trades Education Center.
Related Experiences	Any shop classes, construction projects, helping with repairs at home, fixing things, working with tools, or any hands-on job experience.
Future Experiences	Join a trades program, take more shop/math classes, get welding practice, apply for an apprenticeship, or shadow a worker in the field.
Supporters	Teacher or counselor — helps with school and career planning; parent or guardian — helps with support and transportation; a trades worker or mentor — helps with advice and job information.

Action Steps	1. Research welding programs and apprenticeships. 2. Talk to a counselor about trade classes. 3. Practice more hands-on skills and apply for training.
Career Backup Plan	HVAC Technician. This is a strong backup because it is also a hands-on trade and uses similar skills with tools, repair, and technical training.
Resources	California Career Center, California CareerZone, BLS Occupational Outlook Handbook, Fresno EOC, local trade schools, and family/school support.
